PROFESSIONAL SUMMARY

Driven MCA student with strong expertise in Full-Stack Development, AI/ML, and Software Engineering. Proven ability to design and deploy scalable web applications using React.js, Node.js, MongoDB Atlas, and emerging technologies. Proficient in Python and building AI-integrated solutions. Seeking challenging internship/full-time opportunities to leverage technical skills and drive business impact.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, C, C++

Frontend: HTML5, CSS3, React.js, Tailwind CSS

Backend: Node.js, Express.js, PHP

Databases: MongoDB Atlas, MySQL, Firebase

Tools & Platforms: Git, GitHub, VS Code, Postman, LibreOffice

Core Concepts: DSA, OOP, DBMS, OS, Networks, Cloud Computing, AI Integration

PROJECTS

Evo – Personal AI Assistant (2026 - Present) | Python, AI APIs, Automation

Developing an intelligent personal AI assistant for coding support, task automation, and productivity enhancement. Implemented modular architecture for scalability and API integration for conversational AI capabilities.

Food Services Application (2026 - Present) | React.js, Node.js, MongoDB Atlas

Developing comprehensive online food ordering and subscription platform for own business to establish professional digital presence and provide customers superior service. Implemented secure user authentication, intuitive admin dashboard, real-time order tracking, and responsive design. Utilized MongoDB Atlas for optimized database performance and scalability.

Employment Management System (2026 - Present) | Web-based with AI Integration

Building web-based employment management system integrated with AI capabilities. Implements full CRUD operations for employee record management with role-based access control. Features AI-powered analytics for workforce insights, performance tracking, and intelligent recommendations. Developed with HTML, CSS, JavaScript, PHP, and MySQL with normalized database design.

E-commerce Website (2024) | Group Project | BCA Curriculum

Developed collaborative full-stack e-commerce platform as part of BCA coursework. Implemented product catalog, shopping cart functionality, user authentication, and secure payment integration. Applied database normalization and RESTful API design principles. Demonstrated team collaboration and project delivery skills.

EDUCATION

Master of Computer Applications (MCA) | PR Pote Patil College, Amravati (2025-2027)

Bachelor of Computer Applications (BCA) | Takshashila Mahavidyalaya, Amravati (2021-2025)

Higher Secondary (Science) | Shrimati Narsamma Hirayya College, Amravati (2019-2021)

Secondary | Manibai Gujarati High School, Amravati (2013-2019)

CERTIFICATIONS & ACHIEVEMENTS

- **TCS iON Career Edge - IT Primer** - TCS iON (2026)

- **Generative AI Essentials** - TCS iON (2026)
- **Build with AI & Machine Learning Workshop** - NextGen Intelligence (2026)
- **Data Analytics Job Simulation** - Deloitte (Forage)
- **Quantitative Research Job Simulation** - JPMorgan Chase & Co. (Forage)
- **GenAI Powered Data Analytics Job Simulation** - TCS (Forage)

LANGUAGES

English (Professional) • Hindi (Native) • Marathi (Native)

CORE STRENGTHS

Problem-Solving • Quick Learner • Team Collaboration • Adaptability • Communication • Self-Motivated • Deadline Management
